WHAT TO REPORT?

Situations of moral and sexual harassment.

Cases of fraud, corruption, and bribery.

Physical and/or verbal aggression.

Conduct that does not comply with or appears not to comply with applicable laws, our Code of Conduct, policies, rules, regulations, and/or internal firm procedures.

It is not necessary to know whether a specific situation is a breach, but it is necessary to raise concerns and report any situation that may represent a breach.

WHAT NOT TO REPORT?

Dissatisfaction or complaint about the work routine, the work itself, or about colleagues. In these cases, talk to your immediate manager or, if you prefer, talk directly to the People and Culture team by e-mail at recursoshumanos@machadomeyer.com.br.

Request for psychological or emotional support. In these cases, rely on the actions of the Equilibrar Program and consult our Health Management professional, Rafaela Baraçal (RQU), by e-mail at rbaracal@machadomeyer.com.br.

Questions about internal policies, standards, or procedures. In such cases, please contact the Internal Compliance team by e-mail at complianceinterno@machadomeyer.com.br.

Reporting can be done by phone, email, website, and even in person, as indicated below.

HOW DOES THE PROCESS WORK?

- 1 Aliant is the independent and specialized company that acts in the receipt, preliminary analysis, classification, and forwarding of reports to the Ethics Committee. Committee members who have a conflict of interest related to the report and/or those involved will not be involved.
- 2 All reports received, regardless of the medium used, are recorded on the platform and processed by the Ethics Committee.
- 3 For each report received, an investigation plan is established and internal or external investigators are activated, depending on the case, which may also require multidisciplinary analysis.
- 4 Once any investigations have been carried out, the Ethics Committee decides whether or not the report is justified and takes the actions it deems appropriate.

IMPORTANT: Should Machado Meyer be identified as a suspect in a fraud case, the Ethics Committee will be informed to conduct the necessary investigations, as well as promptly notify the client about the incident and the appropriate corrective measures, without prejudice to the other consequences provided by law.

- 5 The process from receipt to completion of the complaint will take place in the shortest possible time, with an average duration of 90 days, and may require a longer period according to the complexity of the situation.
- 6 It is important that the whistleblower follows the process frequently on the platform, in order to respond to any requests for additional information.

Lack of necessary data may lead to the case being closed without investigation. Especially for anonymous complaints, the whole process will take place via the website. Therefore, if there is a request for additional information without a response for longer than 30 days, the complaint will be closed.
- 7 The whistleblower can track the status of the case to see whether the report has been received, forwarded for review, is under review, or has been completed. The information will be kept confidential.
- 8 For the sake of transparency and effectiveness of TEMM VOZ, the Ethics Committee will disclose data from the channel every six months (preserving the confidentiality of the information on each case), such as: number of reports received and resolved, average resolution time, types of violations, and evolution of the data history.

WHAT ARE THE MAIN POSITIVE IMPACTS OF TEMM VOZ?

- Strengthen the culture of ethics and compliance.
- Enable the maintenance of a safe, healthy, and collaborative working environment.
- Identify opportunities for process improvement.
- Inhibit the occurrence of unwanted behaviors.
